WHAT SETS US APART?

IMEI/Serial Number Tracking

Our POS solution for electrical & electronic outlets capable of tracking not only inventory also individual IMEI/Serial numbers for call phones and equipment's in specific. Tracking & management of equipment by IMEI/Serial number is done efficiently in our solution.

Secured Authentication

A POS solution can reach leaps and bounds if it runs in a secured environment. User & user group Authentication (security level to access data), user log details, task management, SMS & Email communication ensures transaction patterns are proper reducing the risk of organization being exposed to fraudulence.

Inventory / Stock Control

Using smart inventory management, you can stay ahead of the demand curve, keep the right amount of products on hand and plan ahead for seasonal changes. IMEI/serial number wise stock transfer & adjustments, multi-location stock handling and product kit adds weightage to effective stock control.

Loyalty / Promotions

Customer promotions and loyalty creates excitement & develops interest in them by offering them loyalty cards, coupons, gift cards, home delivery tracking of regular customers, SMS alerts and many more which proves that customers are top priority than anything.
