WHAT SETS US APART?

Robust Point Of Sale

An efficient POS is the one which helps in fine tuning retail business model. Touch screen POS, label printing, self-ticketing, EAN/UPC support altogether simplifies easy checkout process in super markets / hypermarkets & grocery.

Inventory Tracking

Inventory tracking is done effectively which monitors critical information, transactions that happen in store level. Inventory maintenance is a real challenge in all the retail stores and it overcome with specific functionalities like tracking of perishable goods, weighing machine interface, queue busters, packing & repacking options.

Purchase Management

Products are the backbone of supermarkets / hypermarkets/grocery so they have to be purchased and maintained correctly in right preventing wastage.

Loyalty / Promotions

Customer promotions and loyalty creates excitement & develops interest in them by offering them loyalty cards, coupons, gift cards, home delivery tracking of regular customers, SMS alerts and many more which proves that customer are top priority than anything.
